

# What The Elections Mean

By Tom Nash

The election of officers for the various offices is behind us with most of us being elated over the outcome (and I personally think this is premature), and some of us with deep regret.

Differences are being patched up, and new plans are being implemented to battle inflation, the number one problem facing the nation. New ideas to combat the apathy of the American people to insure their involvement in their government.

It was truly amazing the total number of registered voters who stayed away from the polls, stating that their vote didn't count. The apathy that has been shown clearly reveals that the

American people are totally disgruntled with the two major parties.

The Republicans lost favor behind the Watergate situation. The Democrats continued to belabor the point, aided by the press, to such an extent that most people became bored to tears, thereby creating a dangerous condition for the present form of government that has made this country the greatest country in the world.

So much noise and bandying of words almost lead this country to a one party system which could have caused a dictatorial form of government that could have wrecked havoc with our constitutional form of government, yet we sat at home and refused to intercede by casting our ballot for what we

thought was right.

The free press has been given an even greater responsibility now than ever in the history of the United States. The responsibility of being a watchdog to insure that the American people be kept abreast of what is going on in Congress.

Already one of the labor publications has come out with the following statement:

"The Nation needs a creative and responsive Congress that will cooperate with the new President when it feels he is on the right course, but be strong enough to shape needed legislation itself when the President's programs are inadequate."

On the surface this sounds like a good statement, but can't you see the imposed threat?

The Republican party MUST begin their recruitment

program immediately, and uppermost on their program must be the re-education of the masses. They must recruit many new faces, and from these must come some strong leadership to shape the plans for balancing the scales in 1976.

There is no doubt in anyone's thinking that with the Congress being dominated by the Democrats, a Republican President will catch hell trying to implement any programs through the Congress. Yet the blame for the failure will lie at his doorstep, just as it has been in the past.

The best we can hope for, at this point in time, is that we can survive the next two years without going to war.

The country clamored for a change. The country received their change, now let us see if it was for the best, or was it just jumping out of the frying pan into the fire.

### Area Legislators To Participate In Luncheon/Meeting

Councilman Joe Cota is among area legislators who will participate in a luncheon-meeting arranged by the Monterey Peninsula Branch of the American Association of University Women to discuss a number of issues of concern to Peninsula residents. The event, set for Saturday, November 16th, will be held at the Ramada Inn on Munras Avenue.

The six topics to be covered are: improvement in public transportation, increased housing for low and middle income families, the fair distribution of tax monies to school districts, the balance of water consumption and demand, consumer councils and collective bargaining.

Senator Donald Grunsky and Monterey County Supervisor Roger Poyner will be featured speakers, with Ms. Sharon Schuster, AAUW State Representative, giving the Association's legislative views on the selected issues.

Other city councilmen who will head up group sessions are Joan Moises of Del Rey Oaks, Gerald Fry of Monterey, Barbara Hollister of Pacific Grove and Gunnar Norberg of Carmel.

AAUW members who wish to place reservations for themselves, their husbands or friends should call either Fran Handy or Sue Sollday before Wednesday, November 13th. There is a charge of \$3.75 each.

### Put License Plate Stickers On Top Right

Department of Motor Vehicles Director Robert Cozens advises motorists renewing their vehicle registrations for 1975 that instructions to place the license plate sticker in the "top right well" of the rear license plate are not in error. "Follow the instructions, even though this results in covering the 1974 sticker," he said. "We realize that this is a departure from the traditional switching from one side of the license plate to the other."

From now on, the right hand well of the license plate will always show the year. The left

hand well is reserved for a sticker which will show the renewal month when year-round registration begins.

DMV had planned to start year-round registration right away, and instructions were printed with that in mind. Computer difficulties have postponed the start of year-round renewal for one year.

"But everybody should get into the habit of showing the year in the right hand license plate identification every year, from now on," Cozens said.

Some motorcycle and truck stickers are placed differently.

### New Commanding Officer Of Enlisted Personnel At N-P-S

MONTEREY, CA. - At a change of command ceremony at the Naval Postgraduate School (NPS) today, Cmdr. John W. Gilroy, Jr., succeeded Cmdr. Dale A. Meyer as commanding officer of enlisted personnel and director of administration at the school.

A naval aviator, Cmdr. Gilroy has served previously as the air warfare officer on the staff of Attack Carrier Striking Force, Seventh Fleet. In addition, he has been a jet flight instructor, the air intercept air controller aboard the aircraft carrier Ticonderoga, and an F-4 pilot in Vietnam.

Cmdr. Gilroy is a 1974 NPS graduate, with a master's degree in management. Until his new assignment he was special assistant to the NPS comptroller. He and his wife, Jeanne, live in Monterey with their two teenage children,

Debra and John.

Cmdr. Meyer, also a naval aviator received his master's degree in personnel management at NPS in Dec. 1972.

### Ivory Joe Hunter, Musician, Dies

Internationally famous Ivory Joe Hunter, band leader, pianist, composer and singer, died in Memphis, Tenn., recently.

A victim of Lung Cancer, Hunter had been in ill health for many months.

Most widely known for his "When I Lost My Baby (I Almost Lost My Mind)," he has composed over 3,000 down home blues. Among those are: "I Need You So", "Aint

That Lovin' You Baby", "My Wish Came True" and many more.

His career started back in the 30's and reached the peak in his career in the war years of the 40's. He was a frequent visitor to the Bay Area, and appeared at Esther's Orbit Room, Slim Jenkins Cocktail Lounge, and The Show Case, all of Oakland.

Funeral services will be held in Memphis, his hometown.

### Annual Fund Raising Campaign For Monterey Seaside Twirl Club

From left to right: Yvonne Thomas of Seaside; Wendy Seal of Monterey; and Lisa Gibler of Pacific Grove.

Members of the Twirl Club of Monterey, sponsored by the Parks and Recreation Department, will launch their Ninth Annual Candy Sale November 16. The club has over 4,320 boxes of Stuckeys Pecan Log Rolls to sell by December 7 to finance the purchase of their uniform accessories, drums and provide bus transportation for out of town parades. Girls ages 5-15 yrs. will be calling on residents in the area who will have the opportunity to support the club's only fund raising project as well

as buy candy appropriate for Christmas giving. The girl who sells the most candy is awarded a 1 week Scholarship to Twirling Camp in Santa Cruz according to director Jennie England. Parent Chairmen of the Fund Raising Project are: Mrs. Jack Seal Monterey-Seaside, Mrs. Robert Wefso of Pacific Grove, Mrs. Robert Priestley of Carmel and Mrs. E. L. Beaulieu of Carmel Valley.

### Art And Crafts Show Begins Friday

Stained Glass by Robert Youngman and Black Coral arrangements by Rev. Oscar Pitcock are only two of the unique displays which will be presented at the Sixth Annual Art Show and Crafts Exhibit by the Monterey Peninsula Church of Religious Science at Franklin and Pacific Streets. The paintings by the artists of the church members and friends will be complimented by a collection of photographs, handmade items of stichery, crochet and knitting, drift-

wood, jewelry plus many other creative displays. A new addition this year will be a table of handmade Christmas ornaments.

Hours of the show are Friday evening, Nov. 15 from 7-10, Saturday Nov. 16 from 10:00 A.M.-4:00 P.M. and Sunday from 12:00 to 1:00 after services.

Although this is not fund raising, some of the works of the artists and craftsmen will

be for sale. Mrs. Nancy Claypool, chairman of the Church Hospitality Committee announces coffee and cookies will be served during the hours of exhibit and the public is invited.

Committee chairmen for the show are Mrs. Alberta Monlux and Mrs. Dee Bailey. Further information about displays or the show may be obtained by calling the church at 372-7326.

### At Semi-Monthly Meeting

### Ross Warns C of C

At the semi-monthly meeting of the Seaside Chamber of Commerce, Seaside Councilman Stephen E. Ross warned the directors that they had better start looking for other sources of revenues to defray their activities.

During discussion of what to do with revenues left over from the highly successful Military Appreciation Week, it was determined by members of the Board of Directors that any excesses should be retained in a savings account and reserved until next year when it is anticipated that a fourth annual MAW will be held.

Some of the members suggested that the funds should be divided up among the participating organizations who organized the affair, others thought that some \$360.00 should go to the Chamber for defraying the costs of extra clerical help, etc.

Ross was present during the discussion, and it was at this time that he made his recommendation. He stated that if the trend develops toward city council members not being business-oriented, that there is a strong possibility that the city's support in the amount of \$1000 per month may be withdrawn. In the past, the city council had included in its budget this amount to reimburse the business community for serving as an information center for those people or

businesses interested in locating in Seaside.

Director Ed Fisher remarked that this type of threat would be "cutting off the nose to spite the face", and later was overheard to state that he didn't appreciate this type of threat, since the business community provides much more revenues to the City of Seaside than any other source of revenue which the city has.

Former Mayor Lou Haddad, also a director, remarked after the meeting that he didn't appreciate this attitude either, and added that it certainly would not be fair to the businesses who were lured to Seaside, such as the automobile dealers, and then tell them, "well now that we have you here, fend for yourselves."

Haddad further added that any councilman who doesn't realize how much the businesses contribute to the employment picture as well as the city treasury should do a little homework and see for himself. He cited the increases in sales tax revenues almost double in the last eight years, the business licenses and the property tax which is naturally higher in the business area than the residential area because the values are much greater.

Haddad concluded by stating that this is the attitude which typified the recalled city councils posture just prior to the recall election of 1971.

### This Week's Spotlight Shines On Marianne Hopkins

This week King Junior High School salutes Marianne Hopkins. Marianne is the daughter of Mr. & Mrs. Henry Hopkins of 1773 Luxton Street. She comes from a family of six brothers and five sisters. She is a former student of Juan Cabrillo Elementary School.

Marianne is a very active fourteen-year old ninth grader, who is involved in a number of campus organizations. She is a member of the Honor Society, Heshima Club, Fun and Foods Club, and the N.A.A.C.P. She was also elected treasurer of the 1974-75 Student Council. Her favorite subjects are Typing, P.E. and Geometry. Her ambition is to become a mathematics teacher.

Marianne's hobbies are dancing, cooking, tumbling, King.

sewing, listening to records, bike riding, and playing the piano. She also enjoys meeting new people, and traveling. She was delighted with her 1970 trip to Canada.

Marianne enjoys her classes. She has been an honor roll student since she entered

# Wearing White Is Right

Night driving places greater difficulty on the part of the motorist -- and greater responsibility on the part of the pedestrian, says the California State Automobile Association (AAA).

The concept of wearing white at night is geared to the pedestrian's safety. He can see motor vehicles easily, whereas the motorist's perception is greatly limited in the dark. Therefore anything the pedestrian can do to make himself seen will contribute to his own safety at night. White or light colored garments, flashlights, and especially reflectorized tape or material are all effective ways for the pedestrian to "show up."

Motorists must also share in the responsibility for safety. It is advisable to slow down and be especially alert for moving objects at night. Also, due to the extended period of daylight savings time, the early morning hours of darkness, or semi-darkness, can be particularly hazardous, and call for increased caution.

The poster "Wear White After Dark" is one in a series distributed by the CSAA to schools in northern and central California and throughout Nevada.

**6 WAYS TO USE LESS ENERGY HEATING YOUR HOME.**

You can save fuel and help keep your home heating costs down by following these tips:

1. Set your furnace thermostat to a temperature of 68° or lower. Turn it down when you leave home or retire at night.
2. Examine and clean the heating system thoroughly each fall. Clean or replace dirty filters that make the furnace work harder to heat your home.
3. Keep all exterior doors—as well as those to garage, attic and basement—tightly closed. Lost heat is a waste of energy and money.
4. Proper home insulation and weatherstripping can cut heating costs up to 45%. Older homes often need new or additional insulation for adequate protection.
5. Open drapes on sunny days. Let the sun warm you naturally. Close drapes over large glass areas at other times; this can stop up to 16% of heat loss through windows.
6. Close damper when the fireplace is not in use so that the house heat can't escape up the flue. These are just a few of the many ways you can conserve energy.

## Talcott Selected

Congressman Burt Talcott (R. Salinas) has been selected by the American Federation of Small Business for the Small Business Honor Roll. Talcott was selected for the award because of his consistent voting record against excessive governmental spending and for limited Federal regulation of small business.

The Federation named 166 other Congressmen from across the country for their efforts to curtail bureaucratic control over the American economy.

"In this period of rampaging inflation brought on by too much Federal spending, I'm proud to be named as one of the top inflation fighters by the American Federation of Small Business," said Talcott. "Small businessmen are hurt as much as any segment of the economy," continued the Congressman, "by the spiraling costs of energy, transportation and wholesale goods. During my 12 years as a member of Congress, I have tried to work for a fiscal policy

that would recognize the deficit spending by the Federal government is the primary cause of inflation. We won't stop inflation unless we curtail Federal spending and make an attempt to eliminate some of the thousands of regulations that handicap the operation of America's 12 million small businesses.

I am grateful to the American Federation of Small Business for this award and I

hope that my record in the next session of Congress will secure me a place on the 1975 Small Business Honor Roll."

a BOOK that can CHANGE your whole life

Is GOD real to you?  
Can you trust HIM?  
Is HE near to you?

The Bible tells us we can turn to God for help, for health, for protection. Yet some think these Bible promises are empty. They don't have to be. Today there is a book that is helping many people tune in to the truth of God's nearness, His power and fatherliness. That book is

**Science and Health with Key to the Scriptures.**

At a low point of poverty, hopeless illness and loneliness, its author, Mary Baker Eddy, saw that God can be trusted and loved. She found that God heals the sick when we love and understand Him. A deep student of the Bible, she discovered a Science based on living the Christianity Jesus taught. She won her freedom from poverty and disease and from her loneliness. Then she wrote down what she learned for the whole world.

By reading and studying this powerful book along with the Bible, men and women throughout the world have found that God can and will help them. These people have solved housing problems, gained opportunities for better education. They've won freedom from poverty, overcome racism. They've discovered what it really means to be the children of God.

You can borrow a copy of *Science and Health with Key to the Scriptures* from the free lending library at any Christian Science Reading Room, or you can purchase it in paperback.

**SPECIAL FREE OFFER**  
If you'll take this ad to one of these Reading Rooms, you can have your own copy of *Science and Health* to read for thirty days. If at the end of that time you want to keep it, you just pay the nominal purchase price of \$2.25.

Or you can return it to the Reading Room with absolutely no obligation.
